

To:CalDigit
Attn:Jon Schilling

Dear Jon,

I just wanted to thank you for sending us the 2 S2VR Duo units. We have been putting them to the test on our current commercial projects with MTV and Dominos Pizza, and they have been most impressive.

Due to the recent rush of work that has come in, we needed to expand our realtime SD video capabilities. This meant purchasing a second digibeta deck as well as additional raids for our blackmagic stations. Until now, we have relied on apple XRaids, but the size and cost of the XRaids, plus fibre cards were not very attractive. So we decided to give Caldigit a try, and we have been extremely impressed thus far. Next we will try one of your HD raids. Thank you for a great product at an amazing price point, as well as the excellent service.

Sincerely,
Steve Choo
President
